## THE APPEAL FOR 1876.

The Momphis APPEAL has just entered on the thirty-sixth year of its ex- perhaps pay well if bought up and held istence, and great as has been its popularity, and brilliant as has been its record in the past, the proprietors enter sentative journal of the southwest. Notwithstanding the hard times, the cirwe design enlarging our field of usefulness during the present year by making the paper still more worthy of the liberal newspaper during the present year will be more than ever instructive and indispensable to the public. Momentous a year of agitation and extraordinary events. We will have elections, local and national, for State logiciatures and new Producent. The APPEAL will be found abreast of all progress, 245 bales at this time last year. fully up to the times. With no ofpreach the gospel of Democratic truth, and insist on a clean Democratic organ- last year. ization. The political drift is leading the public to understand that every man diling outern from the opening of the Exp'ts G. Britain diling outern from the opening of the must decide which cause he will serve and the current indicates most plainly that there will be but two parties in future elections-the one Democratic, the other Republican. There is no alterna tive but to choose between them. The APPEAL, true to its normal position and the canonized traditions of the party re-enlists under the Democratic banner, The Democratic party is a national party, and it should have but one and the same name throughout the Union. There is no coherence or nationality in a party that assumes different names in different localities. In the northern States the enemies to the corruptions of Radicalism, call themselves Democrats; in Virginia, Conservatives; in Tenneseee, Democrats and Conservatives; in other States, Democrats and Liberal-Republicans. When a party thus assumes different names, it becomes a jarring faction, made up of odds and ends, without homogeneity or nationality. Entertaining these views, we shall discard all appendages to the name of Democrat and ally ourselves with the National Democracy. Aiready its banner floats triumphantly in the breeze. National Democrats demand an immediate cessation of the brutal military tyranny over the south; that the iron heel of the despot be lifted from the necks of a prostrate people, upon whom it trampled in the wantonness of power and in the malevolence of ravenge. With the triumph of Democracy in November next, we may once more hope for the revival of the good old times, when the people of this Union were all indeed brethren; when the shadow of the soldier and of martial law shall disappear beneath the recollections of the sorrowful past. With the election of a Democrat to the Presidency, we may with gladness proclaim that the Centennial of our independence is a jubilee even bayond that which it commemorates. OUR REVIEW of the cotton market last week reported middling cotton in New York at 13ic; next day the price fell to 13 1-16c; on Monday there was a further decline to 13c; this last was recovered on Friday, the quotation advancing to 13 1-16c. New Orleans quoted 124c, which on Tuesday became 12 c. Liveric, Liverpool 11, Memphia ic. As far

as there is change, it will be observed, it chance. The full rivers give every oplowing statement, made by the Vicks-burg Herald in its publication of Febru-ary lst: "Many of the fields are yet white with cotton, which the planters are unable to pather. All the many of the Memphis cotton exchange were are unable to gather. All the markets are overstocked, and yet the steamboats which the high water lets into all the creeks and lakes are coming into pur completely wrapped up in the alwale, and people are beginning to inquire when will the supply case." The next day, February 2d, the same paper said: "Some of the planters have not yet days picking and some of the fields." yet done picking, and some of the fields are yet white with the staple. We hear of some fields which have not yet been touched." In connection with the sub-ject of the crops, inquiries have been made as to the total of large crops in former years. Beginning with 1826, we find three years to which the total crop exceeded four millions of bales. In 1859-60, 4,069 770 bales; 1870-71, 4,352,-317 bates; 1873-74, 4,170,388 bales. 	are banks that are desirous of extending
	their discount lines. There is plenty of
£.	money for any promising enterprise, but
	the openings for investment are few.

	change has been in plenty all week, but
-	there were spots yester lay where it was
	less so, a necessary result of some light
	day's cotton sales at the latter end of
	the week. New York still quotes i dis-

Arkansas State scrip is occasionally sought for, and is stiff at our figures.

There is nothing doing in city bonds to

Arkansas State scrip. THE PRODUCE EXCHANGE WAS quieter vesterday than might have been expeeted, es a St. Louis and Louisville boat had arrived. The demand, however, was wanting in animation, and in some articles holders showed a disposition to stand out of the market for better prices. Corn was entirely dull; the low rates appeared to be no longer ac-ceptable, and the stock was not put forward for sale. Where the price was asked, amounts were named in advance of what has been given of late, and no transactions are recorded. The opinion was expressed that 43e would gain the corn. Oats have been in better inquiry, and, although not active, they are not now entirely neglected; 100 sacks of mixed sold at 44c. Bran has fared badly all week, for, while offered liberally, the call for it has been limited, and prices have fallen; it was offering at 14c, a price at which it would probably be taken. Corn bran was in small of-fering at 14c, at which price 50 sacks were taken. Hay in low and medium grades is in plentiful supply at from \$12 to \$18, but the demand is slight; there was a sale of a car-load of Arkansas prairie, small bales, at \$11. Commeal is assuming more strength. Some dealers have tried their strength at running a partle-ular and enterprising Individual out of the market, but when the party they were besieging turned their own shot against themselves, by getting a flat-boat load of meal and selling it at \$2 10, "they caved." Cornmeal was held at \$2.25, and every holder declaring, like "chesp John," "I want no more and I'll take no less;" what sales were made were at that amount. It was noticed that the last arrived boat had no cornmeal aboard. Potatoes remain demoralized; sales were made at all sorts of prices, from \$1 20 up, and efforts are made to escare the consequences upon market quotations by selling on "pri-vate terms." Yesterday 200 barrels of russets sold at \$1.20, and from store 50 barrels of peerless at \$1.50. It is useless press prices almost as much saif they were lying at our landing. Provisions are in good demand; Eggleston, Henness & Co's Chicago provision circular, of Saturday, reports that the week's market has been unsettled, and, at times greatly excited. Receipts have been fair. but less liberal than the bears predicted, the weather was excellent, yet only 4000 head came in above the receipts of the week before, an advance was the consequence. The Chicago Tribune of Saturday reports: "Hog products were active and stronger. Hogs were again in only moderate supply, and about 124c per 100 pounds higher, and this caused a firmer feeling in products, though there was at times a reactionary wave from the buovancy of the preceding day.
